

March 5, 2013

To the Board of Directors of  
MUNIPRO, Inc.:

We have audited the financial statements of the business-type activities of MUNIPRO, Inc. (the Corporation) for the year ended December 31, 2012. Professional standards require that we provide you with information about our responsibilities under generally accepted accounting standards, Government Auditing Standards as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter dated December 4, 2012. Professional standards also require that we communicate to you the following related to our audit.

### **SIGNIFICANT AUDIT FINDINGS**

#### **Qualitative Aspects of Accounting Practices**

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Corporation are described in Note 2 to the financial statements.

***The Corporation adopted GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, during 2012. There was not a material impact to the Corporation as a result of implementing this standard. We noted no transactions entered into by the Corporation during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.***

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

***The Corporation's financial statements do not include any particularly sensitive accounting estimates. The financial statement disclosures are neutral, consistent and clear.***

#### **Difficulties Encountered in Performing the Audit**

We encountered no significant difficulties in dealing with management in performing and completing our audit.

#### **Corrected and Uncorrected Misstatements**

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management.

***There were no misstatements identified during the audit.***

## **SIGNIFICANT AUDIT FINDINGS (Continued)**

### **Disagreements with Management**

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report.

***We are pleased to report that no such disagreements arose during the course of our audit.***

### **Management Representations**

We have requested certain representations from management that are included in the management representation letter dated March 5, 2013

### **Management Consultations with Other Independent Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts.

***To our knowledge, there were no such consultations with other accountants.***

### **Other Audit Findings or Issues**

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors.

***However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.***
